Proskauer

Shared Connection and Skyline Views at Proskauer's TMT Alumni Connect Event

November 17, 2026

Proskauer alumni and attorneys came together in early November for the TMT Alumni Connect Happy Hour, catching up with former colleagues and meeting others across the Firm's Technology, Media & Telecommunications community. Held in the private Sunrise Room at Dear Irving on Hudson, the gathering gave guests time to exchange perspectives, share industry developments, and get to know one another over cocktails and appetizers, with New York City's skyline as the backdrop.

For attendees, the mix of professional and personal exchanges really captured the spirit of the evening.

> "Conversations ranged from professional, work-related topics to world events to puppies – which to me highlighted the range, depth, and humanity of the attendees."

> **Elaine Simson,** Senior Counsel – Compliance, ATOMS

"This was my first TMT Alumni Connect event and I had a wonderful time," said **Elaine Simson**, senior counsel – compliance at ATOMS. "Aside from the beautiful venue and stunning views, it was so cup-filling to connect with current and former Proskauer attorneys, as well as others in the TMT community broadly. Conversations ranged from professional, work-related topics to world events to puppies – which to me highlighted the range, depth, and humanity of the attendees. I'm grateful to Proskauer for bringing us all together and am already looking forward to attending the next TMT Alumni event."

“As a first-time TMT Alumni Connect attendee, I was struck by the breadth of Proskauer’s alumni network and its reach across the industry,” said **Rosetta Ellis-Pilie**, vice president, on-air talent negotiations and policy at ESPN. “The candid, engaging conversations offered fresh perspectives and a valuable opportunity to meaningfully engage with fellow alumni and Proskauer attorneys across the industry. I left with new insights and connections I look forward to continuing.”

As planning begins for 2027, TMT alumni are invited to share ideas for future gatherings and help shape the network’s activities in the year ahead.
