

# In Paris, Kindling New Possibilities for Young Entrepreneurs

**October 2015**

In October, lawyers in Proskauer's Paris office shared insights with young entrepreneurs about how to navigate the tricky legal aspects of starting a business. The training session, which covered company formation and corporate law, was Proskauer's contribution to the intensive, two-week "Press Start" training program offered to 20 young entrepreneurs through French nonprofit Global Potential. The program, which focuses its efforts on youths from disadvantaged areas of France, came to a close with a ceremony at the U.S. Embassy in Paris, where the entrepreneurs presented their goals and projects.
