May 22, 2018

Proskauer's Leveraged Finance Group has released its 2018 Global High-Yield Bond Study, which provides dealmakers, issuers and investors with an in-depth look at deal terms and trends in the high-yield bond market.

The study covers high-yield bond deals closed globally between 2013 and 2017, drawing on data from Proskauer's extensive proprietary database of approximately 2,000 high-yield deals since 2011. The report categorizes deals by geography, deal size, industry, credit rating and whether they are backed by private equity sponsors.
