

Four Proskauer Partners Recognized as LMG Life Sciences Stars

October 5, 2020

NEW YORK, October 5, 2020 – Proskauer partners Fangli Chen, PhD, Daryn Grossman, Siegmund (“Sige”) Gutman and Bart Williams have been named Life Sciences Stars in the latest issue of *LMG Life Sciences 2020*. Sige and Fangli serve as chair and vice chair, respectively, of Proskauer’s Life Sciences Patent practice.

Fangli is recognized as an accomplished patent litigator representing biotech and pharmaceutical clients as well as her expertise in patent strategy and management. Additionally, Fangli was also selected as a finalist for Patent Strategy Attorney of the Year- Massachusetts.

Daryn serves as head of the Life Sciences Group and is recognized for her licensing and collaboration work as she designs and negotiates complex technology and intellectual property transaction structures.

Sige is recognized for his work as a leading patent litigator representing leading biologics, pharmaceutical, biotechnology, and medical device clients. Sige was also selected as a finalist for General Patent Litigator of the Year- California.

Bart is recognized for his work as a counselor and trial lawyer for many Fortune 500 companies, specifically his cases involving product liability as well as white collar and government investigations.

About Our Life Sciences Group

Proskauer’s multidisciplinary Life Sciences Group brings together the critical skill sets and experience to litigate important intellectual property matters, create and grow life sciences companies, obtain intellectual property rights, raise capital and negotiate and execute strategic deals.

We represent mature pharma and biotech companies in accessing and protecting markets, early-to-later-stage companies in developing new medical technologies, investors in their strategic transactions, as well as universities and other academic or research institutions in realizing commercial value from the innovation of their faculty and research staff. The myriad connections we have in this sector allow us to help clients grow their businesses by gaining access to financing, technology, partners and markets.

About LMG Life Sciences

LMG Life Sciences highlights firms and attorneys that effectively present the complexities surrounding the intersection of the legal market and life sciences industry. Research for *LMG Life Sciences* is based on reviewing nearly 1,000 surveys and interviews completed by active partners at firms across the U.S.
