[Podcast]: ESG Measures - A Cross-Border Discussion on Developments and Impact for Asset Managers

January 29, 2021

In our latest ESG podcast, Proskauer financial services regulatory partner Kirsten Lapham and asset management litigation partner Joshua Newville discuss the impact of EU ESG regulations on the global asset management industry, and in particular how these changes will affect non-EU asset managers. We also address investor and regulatory outlook in the United States as it relates to sustainable investing.

This podcast contains general information on legal developments and does not constitute legal advice. In case of particular queries, please contact your legal counsel for specific advice.
