Pulling in the Same Direction:

A Special Keynote Interview

March 2023

Proskauer's Private Funds lawyers Jordan Hurwitz and Natalie Scott recently sat down with *PEI Magazine* to discuss what have become the most common methods to achieve alignment in GP-led deals to ensure such transactions are viable. During this keynote interview, they address several different facets of terms alignment such as the continuation fund economics, including management fees, tiered carry, and the GP's reinvestment in the new deal, tools to ensure fair pricing, and the importance of comprehensive disclosures.
