Putting Funds in Focus

August 14, 2024

We brought together partners from across the world of private funds – buyouts, secondaries, hedge funds, fund finance and wealth solutions – and had them answer some of biggest questions facing GPs and LPs alike. What did they have to say? Relationships are key and so is creativity. New investors are emerging in just about every strategy and AI will have the ability to change the game – if used correctly.

Scroll down to read in full their answers about the biggest challenges facing investors, the new strategies on their minds and the opportunities ahead. And be sure to join us on September 18th for our Funds in Focus marquee event to hear from these partners in more about all things private funds.
