California Climate Disclosure Laws: A Strategic Guide to Compliance and Competitive Advantage

KEY ESG on **November 24, 2025**

Aliza Cinamon contributed her expertise in environmental law and ESG to a collaborative whitepaper with *KEY ESG* on California's landmark corporate climate disclosure requirements. The whitepaper explores the implications of SB 253 and SB 261 — the first-state-in-the-nation laws mandating greenhouse gas emissions and climate-related financial risk reporting — and offers practical guidance for companies navigating these complex compliance obligations.
