Healthcare: East Coast

The Firm: Proskauer Rose is successfully growing its healthcare practice. It has established a presence in Chicago following the acquisition of two attorneys from McDermott Will & Emery and is, sources agree, making significant headway. This, coupled with its entrenchment in New York, sees the firm's healthcare profile in the ascendancy on the East Coast. The group is primarily recognized for its strength in transactional matters; however, it is also noted for its expertise in regulatory issues and litigation.

Sources Say:"*The lawyers really know what they are talking about."*

Key Individuals: Edward Kornreich is one of the best-known healthcare attorneys in the country, praised for his "*brilliant mind and tremendous presence.*" In particular, he is lauded for his handling of corporate governance matters.
