Insurance: Dispute Resolution

Band 2

The Firm: Despite being relatively new to the Chicago scene, arriving in 2008, the firm has rapidly established itself as a major player in the insurance field. The group is especially well respected for its work on the policyholder side and is strong in disputes. The team provides ongoing advice to Union Carbide in thousands of asbestos-related cases pending in New York, and is acting for Cargill in a mass coverage case in Minnesota.

Key Individuals: Steven Gilford is a much celebrated policyholder counsel. Clients hail "a pragmatic attorney, well suited to advising large corporate clients." Marc Rosenthal has a broad coverage practice and does a significant amount of counseling work. "He is excellent at explaining complex legal concepts to nonattorneys," say clients.
