Alan S. Teran, Ph.D. is an associate in the Litigation Department and Intellectual Property Group.

His practice focuses on a variety of intellectual property issues, including worldwide patent portfolio development and litigation. Alan also has experience with in-house legal and compliance matters, including product counseling, commercial contracts and privacy.

Alan has expertise in semiconductor devices and fabrication as well as experience with a wide range of technologies, including augmented/virtual reality-based software solutions, material processing operations, control systems, integrated circuits, machine learning-based financial services software, media and mobile technology, medical devices and secondary batteries.

Alan is a registered patent attorney before the U.S. Patent & Trademark Office and a Certified Information Privacy Professional in the United States (CIPP/US) with the International Association of Privacy Professionals (IAPP).

Alan received his Ph.D. in Electrical Engineering at the University of Michigan, where his research focused on energy harvesting technologies and semiconductor physics for Internet-of-Things and medical applications.
