Trends in Private Credit

[Home](#)

[Click here to
take the survey](#)

Our annual survey identifies trends and benchmarks predictions for the next 12 months. The results complement the market data we have collected for the last 12-month period, giving insights into current market conditions and a view into the future. These findings will be shared in early 2025. We hope that you will support this initiative by taking 10 minutes to complete the survey online.

WIN AN iPad

As a special thank you, attendees of today's Private Credit Summit who complete the Survey online will be entered in a drawing to win a new iPad. The winner will be notified 48-72 hours after today's event.
