Donna Parisi

Global Head Finance Business Unit, Shearman & Sterling

Donna Parisi is the Global Head of Shearman & Sterling's Finance Business Unit covering bank finance, leveraged lending, project finance, restructuring and insolvency, and structured products and derivatives. She is one of the firm's Financial Services Industry leaders and also leads Shearman & Sterling's FinTech Foundry and Shearman Women, the firm's women's initiative.

The FinTech Foundry program, which supports the FinTech-related activities of the firm's clients and the wider global FinTech ecosystem including financial institutions, FinTech start-ups, accelerators and incubators, venture capital and private equity investors, and policymakers.

Donna's representations include major financial institutions such as Bank of America Merrill Lynch, Barclays, Citigroup and Morgan Stanley, as well as hedge funds and other private investment funds. In addition, Donna is a prominent thought leader and frequently serves as a moderator or panelist at events organized by the *Financial Times*, *Glass Hammer*, *Thomson Reuters*, *FinTech Cocktail Club*, *WISER*, *ISDA* and the *Practising Law Institute*, among others. Most recently, Donna has been named to *Innovate Finance*'s 2018 Women in FinTech Powerlist.

Jillian Munro

Senior Vice President and Head of Technology, Fidelity Digital Assets

Jillian Munro is a Senior Vice President and Head of Technology at Fidelity Digital Assets, which provides enterprise-grade digital asset solutions for institutional investors. As a senior technology executive and patented inventor, she specializes in innovative solutions to solve diverse business problems. Her areas of expertise include: large technology portfolios, agile transformation, cybersecurity, governance structures and operating technology as a business, application architecture and frameworks, data transparency and analytics and business continuity and technology resiliency. Prior to joining Fidelity, Jillian served as a Managing Director, Chief Technology Officer of Legal and eDiscovery and Global Technology Lead for Resolution and Recovery at JPMorgan Chase.
